SKILLS

- Languages: C++, JavaScript, Python, Java, C.
- Web Technologies: React, HTML, CSS, Flask, Node.js/Express.
- Cloud & DevOps: Azure (Cost Management, Entra ID, RBAC, VNets, NSGs), AWS (Lambda, API Gateway, DynamoDB, EC2, VPC, IAM, CloudWatch, S3, RDS, ALB), Terraform, Docker, Kubernetes, CloudFormation, GitHub Actions (CI/CD), Linux, Bash/Shell Scripting.
- Databases: MySQL, MongoDB, DynamoDB.
- Tools & Platforms: Git/GitHub, Vercel, Render, Discord API.
- Soft Skills: Problem-solving, adaptability, continuous learning.

PROJECTS

- NexaCore Technologies** — *Azure Cloud Architecture, Microsoft Azure* [\[GitHub\]](#) May 2026
- Architected Azure infrastructure for a simulated B2B SaaS organization across 8 resource groups with strict Prod/Dev/Staging isolation.
 - Configured VMs, VNets, and NSGs to support three distinct cloud products, using Entra ID with RBAC to enforce least-privilege identity and access management.
 - Automated VM backup via Recovery Services Vault with tiered retention for a 4-hour recovery SLA, and enforced governance through Azure Policy (location restrictions, tagging, budget protection).
- Cloud Cost Dashboard** — *React, Node.js/Express, Azure Cost Management API, OAuth* [\[GitHub\]](#) Jul 2026
- Built a full-stack cloud cost visibility tool (React/Vite + Node/Express) authenticating to Azure via OAuth2 client-credentials flow with a least-privilege Cost Management Reader service principal.
 - Engineered a secure server-side proxy keeping Azure credentials out of the browser, with response caching and rate-limit handling; deployed frontend (Vercel) and backend (Render) independently.
 - Visualized real-time, multi-resource-group spend across services (VMs, Storage, Networking, SQL, Backup, RBAC) with dynamic filtering and cost-trend charts using Recharts.
- Esports Community Discord Bot — CI/CD to Azure** — *Python, Discord.py, Docker, GitHub Actions, Azure Container Registry, Azure App Service* [\[GitHub\]](#) Apr 2025 – Jul 2026
- Engineered a Discord bot for an esports community automating match notifications, player dashboards, and live tournament announcements, with MongoDB-backed persistence.
 - Containerized the application with Docker and built a GitHub Actions CI/CD pipeline that builds on every push to main and pushes images to Azure Container Registry.
 - Deployed to Azure App Service via the Azure CLI; debugged pipeline failures (service principal auth, deploy step reliability) and verified live production delivery by tailing App Service logs.
- Serverless Contact-Form Pipeline** — *AWS Lambda, Function URLs, DynamoDB, EC2, VPC, IAM, CloudWatch, Terraform* [\[GitHub\]](#) Jul 2026
- Designed and deployed a fully serverless pipeline (S3 static site → Lambda → DynamoDB) provisioned end-to-end with Terraform as reusable Infrastructure-as-Code, with least-privilege IAM roles scoped to a single write action.
 - Built a custom VPC with public/private subnets and an EC2 instance running a cron-based uptime check, monitored via a CloudWatch error-rate alarm.

CERTIFICATES

- Human Computer Interaction (In English) by NPTEL Apr 2026
- Financial Management for Managers by NPTEL Apr 2026
- Building Generative AI Applications and Solutions via No-Code Platforms by INFOSYS Aug 2025
- Java Bootcamp (Leetcode – Codeforces Edition) by LPU Jul 2025
- Privacy and Security in Online Social Media by NPTEL Apr 2025

ACHIEVEMENTS & EXTRA-CURRICULAR

- Code Off Duty Hackathon — Full-Stack Development, LPU Apr 2024
Collaborated to architect and deploy a full-stack travel agency platform in a 24-hour hackathon.
- HackVerse 2024 — DevOps & Containerization, LPU Mar 2024
Participated in a team hackathon focused on application containerization using Docker.

EDUCATION

Lovely Professional University Bachelor of Technology - Computer Science and Engineering CGPA: 6.27	<i>Phagwara, Punjab</i> <i>Since Aug 2023</i>
Kendriya Vidyalaya Intermediate Percentage: 78.6%	<i>Sitamarhi, Bihar</i> <i>Apr '22 – Mar '23</i>
DAV Public School Matriculation Percentage: 79.3%	<i>Sitamarhi, Bihar</i> <i>Apr '21 – Mar '22</i>
